c) migratie door adoptie					
Vincent					
Gijs					

(2017 May 5th) Dirck van Bekkum MSc. Cultural & Social Anthropology [www.anthropo-gazing.nl](http://www.anthropo-gazing.nl)  
During my (unfinished) PhD project (2006-2014) I selected and constructed about thirty exemplary case vignettes from hundreds of young men I guided, interviewed and followed in their institutionalized and local contexts. I tried, in this representative sample, to assemble an optimal level of diversity as encountered in 10 years of clinical fieldwork research among 500 young men as a grouptherapist and in 25 years of a self-employed ([www.ctt.nl](http://www.ctt.nl)) co-educator of hundreds of professionals in youth & mental health care and incarceration settings.
